#### REMARKS

Applicants respectfully request entry of the above amendments to the specification as relating to formal matters only. The requested changes to the specification do not effect the completeness of the disclosure of the present invention and do not effect the claims as allowed by the Examiner. The deleted references in the specification to Figure 9 which was earlier deleted from the application are unnecessary to the fullness of the disclosure of the present invention and removal of references to Figure 9 in the specification is intended to improve the readability of the application prior to issuance. Other changes to the specification references to Figures 5A-5F and Figures 10A-10C were required to bring the specification into conformity with the requirements of the Notice of Draftsperson's Patent Drawing Review, PTO Form 948.

CHOO et al. Application No. 08/793,408

The Examiner is invited to contact the undersigned if further information regarding the requested amendment is needed.

Respectfully submitted,
